COMPETITION IN THE WORLD OF VERTICAL COMPETITORS

Chris Lambrou

**CC103
2PM - 3PM**

Chris Lambrou, CEO of Metro MLS, brings over 26 years of experience in the multiple listing service industry. He will discuss how Metro MLS balances cooperation and competition among its participants while also explaining how self-regulation, licensing, law, technology, and business governance combine to support a fair and reliable market.

FUTURE-PROOFING YOUR SOFTWARE CAREER: AI, SECURITY & WHAT SKILLS EMPLOYERS WANT

Jeremy Erdmann

**CC103
3PM - 4PM**

Jeremy Erdmann (MSOE Computer Engineering '00) is Software Technology Manager at Miller Electric, where he guides software tooling, reuse, cross-divisional collaboration, and recruiting. Drawing on 26+ years in embedded software, he'll unpack how trends like AI and security are reshaping what employers actually look for - and how students can future-proof their careers.
