A REPORT ON

Internship on iOS Apps Development using Swift and Website

Development using WordPress

Phase-2

Date: 14th-18th July, 2021
Platform: Zoom Meeting

Internship on iOS Apps Development using Swift and Website Development using WordPress

- **Learn from Experts**

- **15 Days Hands On Internship for Silver Oak University Students**

Introduction

Striving to help students to gain the best of industrial skills and practical insights, **IEEE Silver Oak University Student Branch** came up with Internship on iOS Apps Development using Swift and Website Development using WordPress. Through this we aimed to give students applied knowledge on app and web development along with commercial experience. The motto was to help students deep dive into fundamentals and the implementation of the topic with our eminent experts. This 15 Days Hands on Internship was free of cost and exclusively for students of Silver Oak University.

About the Speaker

The internship was conducted by very eminent expert **Prof. Mitul Mandanka**.

About the Session

Date: 14th – 18th July, 2021
Time: 2:30PM to 3:30PM IST
Platform: Zoom Meeting
