

## **MEETING REPORT**

### **02-21**

**Power & Energy Society  
Chapter  
IEEE PES UFSM Chapter**

**Date:** 09/14/2021

**Started at:** 4 pm

**Ended at:** 5 pm

**Place:** Virtual meeting

**Attendees:** Felipe Souza (volunteer), Giovanni Pozzobon (volunteer), Juliano S. Damiani (vice chair), Leonardo Fontoura (volunteer), Leonardo Silveira (treasurer), Mauricio C. de Camargo (secretary), Mauricio Sperandio (advisor), Miguel Martins (volunteer), Pedro Henrique Eisenkraemer (volunteer) and Pedro Henrique B. Sebastiany (chair).

On September 14<sup>th</sup>, at 4 pm, the IEEE PES executive committee, under the chairmanship of Pedro Henrique B. Sebastiany, organized a virtual meeting, to discuss:

1. Creation of a bank account for the chapter:

As the chapter develops itself, it must have a bank account to manage its resources. In the virtual meeting, we discussed the idea of opening a bank account in the name of Leonardo Silveira (treasurer), which will manage the assets of the student chapter. Besides that, we discussed some agencies where it can be created, such as Banco do Brasil and Caixa Econômica Federal.

2. Campaign of blood donation:

In this topic, we discussed strategies, such as: posts on instagram, sending emails through the coordination of Electrical Engineering, to promote the blood donation event. We also discussed the possibility of calling the staff of the campaign "doar é viver" from Otelio Debres to join them in this humanitarian cause.

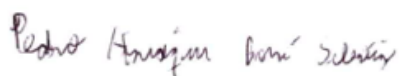

Furthermore, on November 25<sup>th</sup> we celebrate blood donor day. Therefore, it will be the deadline to finish posts and upload photos of this event.

### 3. Status of the electromobility event (SINTEC):

We were updated about the electromobility event that is going to occur on November 28<sup>th</sup>, 29<sup>th</sup> and 30<sup>th</sup>. Pedro H. Eisenkraemer (volunteer) showed us the speakers that were invited and accepted the call. He also talked about how many participants did the registration (70 until now) and which tools are going to be used on the day of the event for streaming and recording the talks.

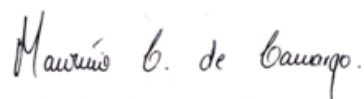

### 4. Write an article for PES eNews

Lastly, we discussed the possibility of writing an article for PES eNews about the SINTEC event. We'll summarize all the lectures of the event to update the discussion of electromobility in Brazil on PES eNews.
