MacOS End Users WORKSHOP

Introduction

Department of Computer Engineering in association with Silver Oak University IEEE Student Branch organized a dynamic event on “macOS End users workshop” This session helped the participants to get basic information of macOS and its related concepts.

About the Speaker

We had a very eminent speaker for conducting the session of macOS. Here is a short introduction of the speaker. Mr. Naresh Vaghela, UniCoin has a history of working with IT Mobility Industries, certified in VMware, Apple and Jamf.

About the Session

Date: 3rd December, 2021

Time: 11:00 AM to 01:00 PM IST

Venue: Apple Lab, Silver Oak University

Participants: 25

The session commenced at 11:00 A.M. with a welcoming speech. After that the session was handed over to the talented speaker Mr. Naresh Vaghela sir. He started off the session with the basic user guide of macOS. He also described about all the frequently used menus that is app, center and setting menu. He gave the brief of the pipeline and how to enable Siri on macOS. He also mentioned about the latest updates available. Also he explained how you can use Finder on macOS for overall management of files, disks and network volumes. Throughout the session, the speaker covered all the features of macOS such as screen mirroring, dictation, Use Stacks, iCloud private relay, etc.

Conclusion

The event was concluded with an interactive session of questions and answers and we expressed gratitude by handing over the memento to the speaker for delivering such a wonderful and informative workshop. And also thanked the enthusiastic participants who showed interest. Looking forward to such spectacular events in the future.

Some glimpse of the event:
