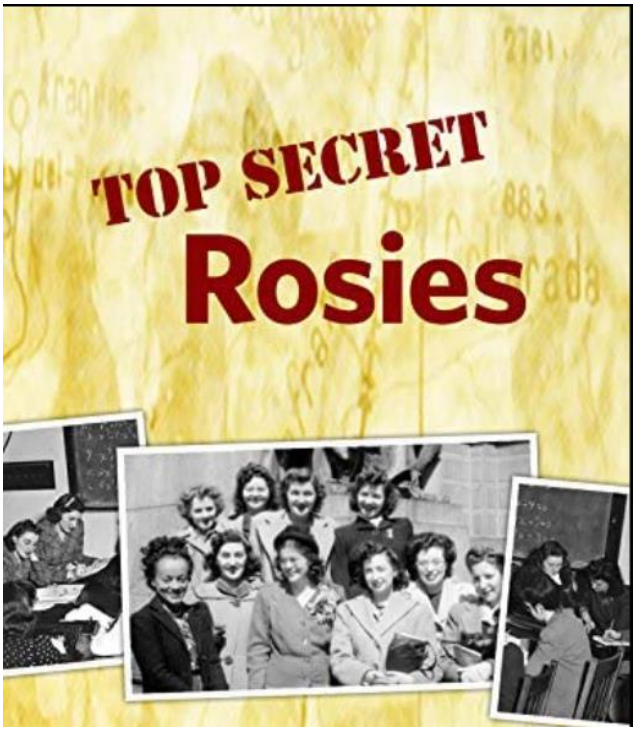
Presents:

Top Secret Rosies: The Female "Computers" of WW II



IEEE Southeastern Michigan
Electrical and Electronic Engineers Creating Our Future

The film is focused on recognizing the contributions of women during WWII, serving as human computers and six of whom went on to program one of the earliest computers, the ENIAC. Their work helped the United States improve the accuracy of weaponry as most conducted ballistics analysis. The film officially premiered on November 1 2010 on PBS.
