([www.LivingLegendsConsulting.com](http://www.LivingLegendsConsulting.com))

**Time:** **1:00-2:00pm EST, September 27, 2022**

**Location:** Zoom link – [https:// us06web.zoom.us/j/87838682022](https://us06web.zoom.us/j/87838682022)

## Company overview

Living Legends Consulting is a company that provides consulting opportunities for experienced technical experts (including semi-retired industry experts) by connecting them with clients and projects. Our platform is like a talent agency for experienced experts and advisors. We match you with exciting enterprises that are often developing innovative technologies, with no upfront cost.

Our team started Living Legends because we were inspired by our experiences with our previous startup, where we worked with many amazing consultants. We noticed that many other young companies in our network were also searching for experienced technical consultants. With Living Legends Consulting, we enable other companies to gain access to top-quality industry experts.

You can join Living Legends at no cost to you. Once your profile is entered into the network, we will notify you when consulting opportunities matched for your expertise arise. You set your time- or project-based rate, and decide if you want to pursue the project and connect with the client. We can also provide support and assistance along the way, including templates for agreements, and management of client relationships, at no additional charge. In exchange for marketing consulting services, working with clients to match the best consultants for each project, maintain the Living Legends network and website, and more, we charge a fee of 15% of the total revenue that is generated by our experts through the projects. You set your fees and select your projects.

## Meeting Objectives and Presenter – Alex Smith

Alex Smith is a founder of Living Legends. Alex has a background in engineering and is well-connected to the community of startups in Boston. Alex cofounded, and served as CTO of, a novel battery tech startup based at Greentown Labs in Somerville, Massachusetts. Alex received his M.S. in Biomedical Engineering and B.S. in Mechanical Engineering at UMass Amherst. Alex was honored as a member of the Forbes 30 Under 30 in the Energy category in 2021.

During this meeting, Alex will present more about Living Legends and how it works. Alex will also share information that may be useful for consultants, including information about the ranges of rates of experts in our network. Alex will close by answering your questions and sharing how you can join Living Legends. **We are excited for you to join us on September 27, 2022 from 1:00-2:00pm EST!**
