Overview of Career Growth Series 2023

This is the final of four monthly meetings starring pre-recorded webinars whose focus are technical career enhancement. These webinars were recorded in 2022 and are available at <https://ieeeyusa.org/calendar/career-webinars/>. However these meetings provide an opportunity to discuss the webinar with other attendees (and enjoy a light refreshment during the meeting.) The discussion part will be available for remote attendance.

Presentation

Leaders are the ones that have the right combination of drive, focus, and market savvy to create something unique that has value today and in the future. Great leaders also have a strong vision for the future and are undeterred when plans take them sideways. The methods of this type of success often take decades to implement and realize. In this webinar, you will find the key ingredients of a great company, and how a founder builds the team that together makes a difference.
