## **Hands-on Session on corelDRAW**

Date: 14<sup>th</sup> September, 2023

G H Patel College of Engineering & Technology,  
CVM University

## **Introduction**

The Special Interest Group on Humanitarian Technology of IEEE GCET SB organized an engaging hands-on workshop on corelDRAW, aimed at inspiring participants to embark on a journey of creativity and design. The event provided attendees with valuable insights into the world of graphic design using the corelDRAW software.

## **About the Event**

Date: September 14, 2023

Time: 4:00 PM

Venue: A-314

### **Hands-on Learning**

Participants engaged in practical, hands-on learning experiences. They explored the functionalities of corelDRAW, learned essential design techniques, and were encouraged to apply these skills creatively in their projects.

### **Creativity Unleashed**

The event provided a platform for attendees to unleash their creative potential. Participants were given the freedom to experiment with various design elements, fostering creativity and innovation, they were also taught how to design T-shirts using the software.

## **About the Speaker:**

The hands-on workshop was conducted by Harsh Shah, the vice-chairperson of Special Interest Group on Humanitarian Technology of IEEE GCET SB for the year 2023. Being a third-year Information Technology student with an avid interest and prowess in graphic designing, he delivered the session exceptionally, covering an array of topics and engaging the participants.

## **Conclusion**

As a result of thorough planning and the unwavering commitment of our organizing team, paired with the enthusiastic participation of our attendees, the CorelDRAW Workshop achieved remarkable success. This event transcended the mere showcasing of technical skills; it served as a living example of how the fusion of technology and creative ingenuity can unlock endless possibilities within the design community.
