Presents
"Future By Design: Jacque Fresco"

Future by Design shares the life and far-reaching vision of Jacque Fresco, considered by many to be a modern day Da Vinci. Peer to Einstein and Buckminster Fuller, Jacque is a self-taught futurist who describes himself most often as a "generalist" or multi-disciplinarian -- a student of many inter-related fields. He is a prolific inventor, having spent his entire life (he recently celebrated his 100th birthday) conceiving of and devising inventions on various scales which entail the use of innovative technology. As a futurist, Jacque is not only a conceptualist and a theoretician, but he is also an engineer and a designer.
