

Exploring AI in Gaming

Date:26/02/2024

Time:5:40PM to 7:00PM

Venue:R 404B

Total count:104/110

Category: Innovation, Incubation & Entrepreneurship

IEEE

IEEE and its members inspire a global community through highly-cited publications, conferences, technology standards, and professional and educational activities.

The IEEE members around the world support the global pursuit of peace.

KL IEEE Student Branch helping in organization growth and upcoming difficulties of peace management.

Description

Exploring AI in gaming involves implementing artificial intelligence for dynamic character behaviors, procedural content generation, personalized player experiences, and streamlined game design, ultimately enhancing immersion and innovation in gaming environments

Overview:

The event showcases the latest advancements in AI technology within the gaming industry, featuring presentations demonstrations on topics such as dynamic character behaviors, procedural content generation, personalized player experiences, and streamlined game design.

Students come together to explore how AI is revolutionizing gaming, fostering immersion, innovation, and new possibilities in interactive entertainment.

Participants engage in hands-on experiences, experimenting with cutting-edge AI tools and to understand their impact on game development and player engagement.

Through networking opportunities and discussions, the event fosters collaboration and inspires the AI-driven gaming experiences.

Lastly, event benefits students with prior knowledge which helps them in future studies, working on theories.
