

How To Be An Entrepreneur

Date: 29/02/2024

Time: 5:40pm to 7:00pm

Venue: R404B

Total count: 141/150

Category: Innovation, Incubation and Entrepreneurship
Events (IIE)

IEEE

IEEE and its members inspire a global community through highly-cited publications, conferences, technology standards, and professional and educational activities.

Description:

We explored startup hurdles like market challenges and team dynamics, then shifted focus to celebrate unicorn companies, before engaging students in a lively quiz, concluding with interactive audience interaction and a call to follow our channels for future updates.

Overview:

Firstly, in discussing the challenges faced by startups, we highlighted various factors contributing to their failure. Market problems often arise when there's a lack of demand for the product or service being offered or when the market is already saturated. Wrong business models can lead to inefficiencies or an inability to generate sustainable revenue. Ignoring customers' needs and feedback can result in losing their trust and loyalty, ultimately leading to failure. Insufficient funds can prevent startups from scaling or even surviving in competitive markets. Building the wrong team, one lacking in necessary skills or cohesion, can hinder progress. Strong competition can make it difficult for startups to differentiate themselves and capture market share. For example, companies like Juicero failed due to market skepticism and a flawed business model, while Blockbuster faltered in the face of changing consumer preferences and competition from streaming services like Netflix.

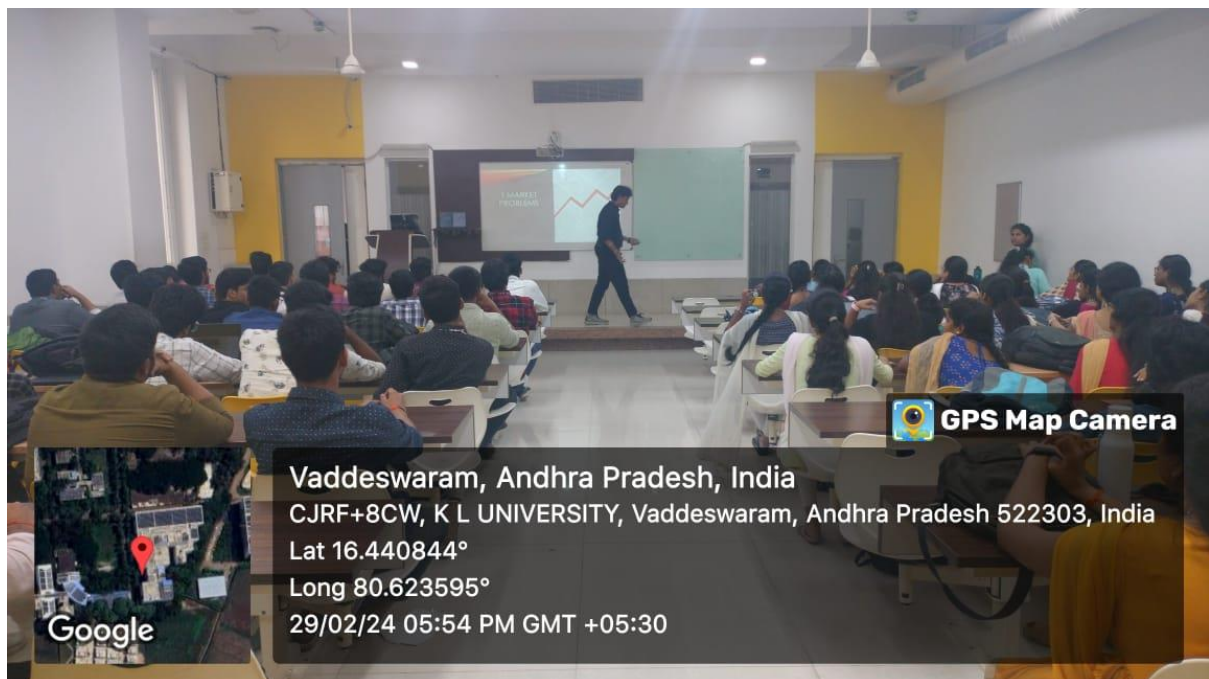

Secondly, we shifted the discussion to highlight successes in the startup world, particularly focusing on unicorn companies. These are startups valued at over \$1 billion, representing exceptional growth and innovation. Examples such as Uber, Airbnb, and SpaceX showcase how startups can disrupt industries and achieve remarkable success. These companies not only revolutionize their respective markets but also inspire aspiring entrepreneurs. Their rapid growth trajectory and ability to scale globally demonstrate the potential of startups to become industry leaders.

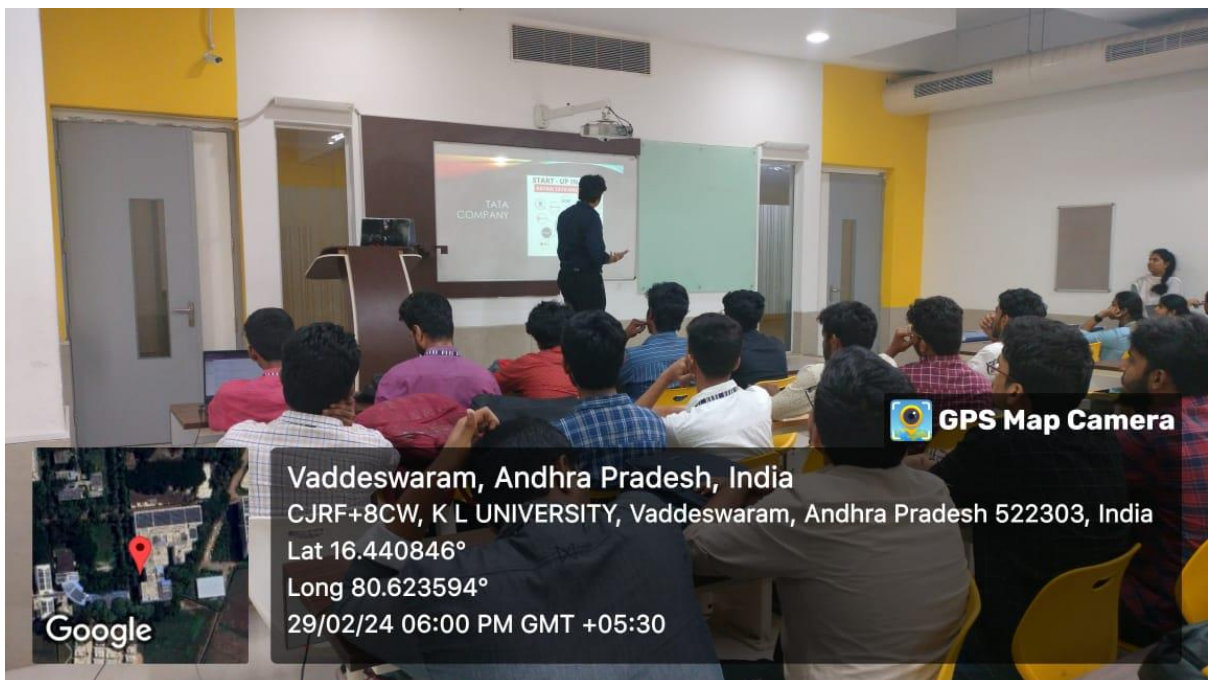

After the discussion, we engaged the audience with a quiz to reinforce key learnings. The enthusiastic participation and accurate responses demonstrated a strong understanding of the subject matter and a keen interest in entrepreneurship. By actively involving the audience, we fostered a dynamic learning environment and encouraged interaction.

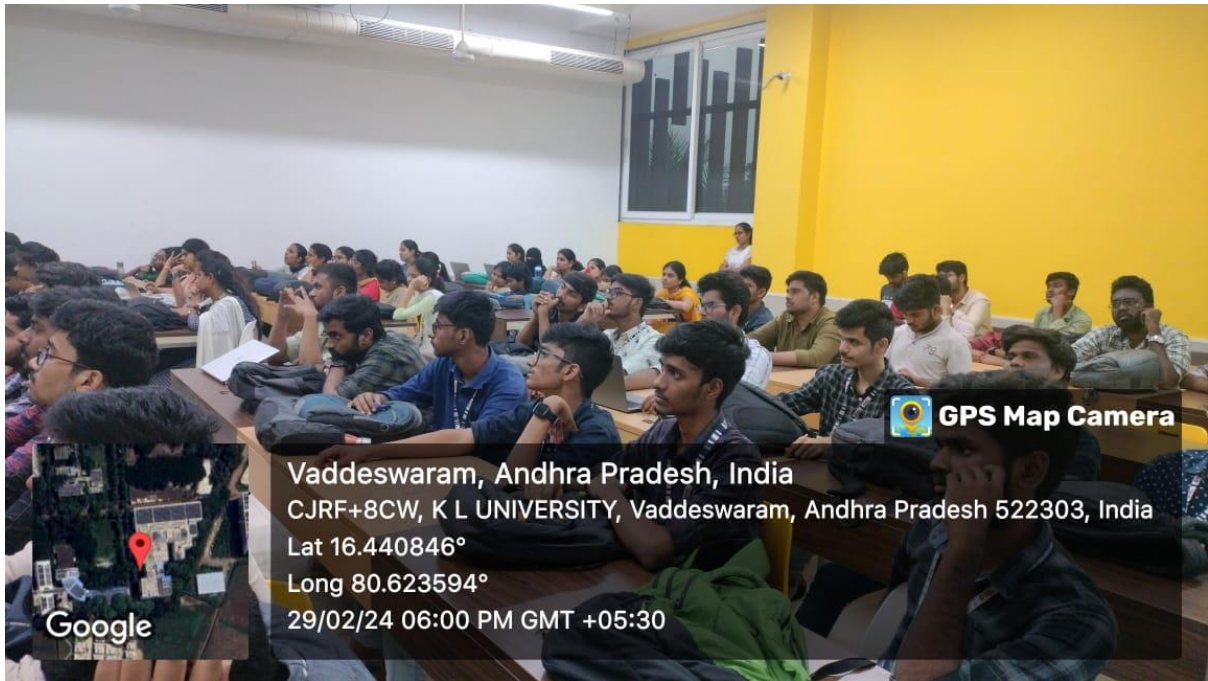

Finally, we concluded by encouraging continued engagement through our social media channels. By inviting the audience to follow our pages for updates, we aimed to maintain momentum and facilitate ongoing discussions on startup trends, success stories, and strategies for overcoming challenges. This interaction serves to cultivate a community of like-minded individuals passionate about entrepreneurship and innovation, fostering collaboration and knowledge sharing.
