

IEEE CTSoc (interactive) Webinar on IoT Cybersecurity

Tuesday, April 23, 2024, 11:00am-12:00pm (EDT)

Carey Frey is an accomplished cyber security executive with more than 20 years of combined industry, intelligence, and technical experience. At TELUS, Carey leads both the security solutions business and corporate programs to protect the company's people, assets and information. Prior to joining TELUS, he served as the Director General of Cyber Defence and the Director General of Cyber Security Partnerships for the Communications Security Establishment (CSE). Carey was responsible for IT security advice and services for Canadian organizations in the private sector. He was also instrumental in bringing security innovation to the Government of Canada and building collaborative cyber security relationships with major information and communication technology companies and Shared Services Canada. A native of rural Saskatchewan, Carey holds a Master's Degree in Public Policy and Public Administration from Carleton University and a Bachelor of Science Degree in Computer Science from the University of Regina.
