For those of you who have not been to Azteca II, here is a crude rendering of "the lay of the land". The restaurant is located in the Resort at Cocoa Beach. It is on the beach side of A1A. Parking is limited for Azteca II, but it is reserved (like many tourists pay attention to the reserved signs). For those needing handicap parking, it is located closer to the beach (see attached).

You can enter through the main entrance and walk straight back to the restaurant, or you can use the back entrance. You will be directed by the staff as to where we will be meeting if you use the main entrance and enter the restaurant.

My wife Kris and I will try to be there before 6 PM to meet you.

Bill Nutter
Treasurer, IEEE Canaveral Section
