

WANT AN EDGE IN YOUR ENGINEERING CAREER?

The IEEE gives you access to cutting-edge knowledge, a global network of professionals, and opportunities that can set you apart from the crowd.

Not sure how you can tap into this global network? Our university has a direct way for you to connect.

Our Student Branch is your best chance to grow your network, develop new skills, and be part of something bigger right from campus.

We have the Women in Engineering (WiE) group, which offers grants and scholarships for undergraduates. It's a great way to support your journey, connect with peers, and be inspired by others in the field.

IEEE Xtreme is a global challenge in which teams of IEEE Student members – advised and proctored by an IEEE member, and often supported by an IEEE Student Branch – compete in a 24-hour time span against each other to solve a set of programming problems.

Start being part of this global network—become an IEEE member and join our Student Branch today.
