Goals

01

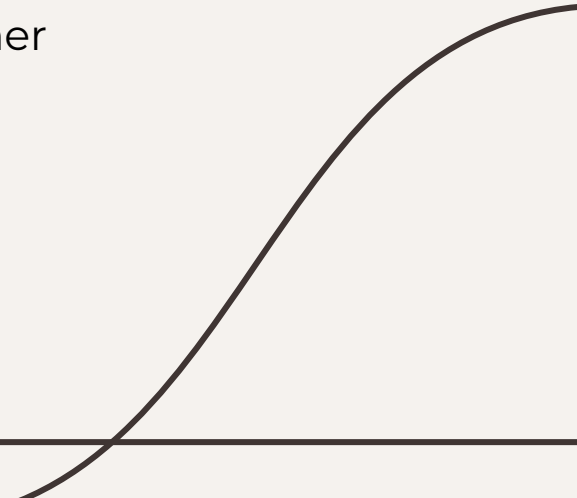

Introduction

What is the Reliability Society?

- A technical community within IEEE, the leading global organization for advancing technology.
 - Focused on ensuring reliability in engineering across hardware, software, and human factors. “Go-to” group for specialty engineering
 - Resources:
 - Publications
 - Training programs
 - Conferences
 - Access to technical data via IEEE Xplore
- 

Why Social Media?

The Boston Chapter for IEEE RS is in need of social media marketing for the following reasons:

- To engage a broader audience for the Boston/NE Chapter
 - To amplify recruitment efforts through targeted and interactive content strategies
 - To promote or provide educational resources for further advancement in reliability/industry knowledge
-

Welcome to our web site!

As the voice of the IEEE Reliability Society in Central New England, this web site is a useful source of information about our community, activities, and events. It aims to become the most efficient means of communicating with our members, guests, and the public. For our members, the Boston Reliability Chapter web site is the focal point of interaction among the membership and the Advisory Committee, providing updates and interconnectivity. Members and guests may use the web site to get periodic news, read publications from our monthly meetings, conduct research and register for events. Whether you are a Reliability Society member, potential member, or student, we hope that you find the Boston Reliability Chapter web site to be a useful tool.

Reliability Society Chapter

Welcome to the Boston Chapter of the Reliability Society.

The Reliability Society is focused on the broad aspects of reliability, allowing us to be seen as the IEEE Specialty Engineering organization. We are concerned with attaining and sustaining these design attributes throughout the total life cycle. We have the management, resources, and administrative and technical structures to develop and to provide technical information via publications, training, conferences, and technical library (IEEE Xplore) data to both our members and to the Specialty Engineering community.

As the voice of the IEEE Reliability Society in Central New England, the website at <http://www.ieee.org/bostonrel> is a useful source of information about our community, activities,

What's Next?

Understanding the **theory** behind social media marketing:

- **Develop a strategy** - Community-based? Discovery-focused? Private comm.?
 - **Understand your audience** - User engagement? Cust. recommendations?
 - **Content and channels** - Organic vs. paid social? Themes?
 - **Organize campaigns** - Profiles? Marketing/buyer personas? S. Media Policy?
 - **Publish an exact schedule** - Editorial calendar? Data metrics?
 - **Define goals**
-

What's Next?

Understanding the **theory** behind social media marketing:

- **Develop a strategy** - Community-based? Discovery-focused? Private comm.?
 - Community-based: SNs allowing close interactions between friends/family by following them
 - Facebook / Twitter / LinkedIn / Instagram
 - Discovery-focused platforms: SNs allowing content for entertainment/learning rather than close networking
 - YouTube / Twitch / TikTok / Pinterest
 - Private communication: SNs allowing for personal messaging
 - WhatsApp / Snapchat / WeChat / Facebook Messenger
-

What's Next?

Understanding the **theory** behind social media marketing:

- **Understand your audience** - User engagement? Cust. recommendations?
 - User engagement:
 - Depending on SN type:
 - Stay updated with followed accounts via new posts, etc.
 - Discover relevant content in feed using algorithms, etc.
 - Consumer recommendations:
 - Consumers trust other consumers
 - Yelp / Tripadvisor / Angi / Yellow Pages / Foursquare / BBB / Trustpilot
-

What's Next?

Understanding the **theory** behind social media marketing:

- **Content and channels** - Organic vs. paid social? Themes?
 - Organic vs. paid social:
 - Organic: Free content that is introduced to more users over time
 - Paid: Sponsored content directly introduced to users at scale
 - Can target specific demographics, tailor ads, quick to perform
 - Increases visibility and reach specifically on boosted posts
 - Themes: Must be engaging, relevant, complementary to brand
-

What's Next?

Understanding the **theory** behind social media marketing:

- **Organize campaigns** - Profiles? Marketing/buyer personas? S. Media Policy?
 - Social profile: Gather feedback and build trust
 - Marketing/buyer personas: Target demographics by addressing their specific needs, choose effective content formats
 - Social media policy:
 - Guide collaboration
 - Outline general rules for all SN activities to maintain reputation
 - Align SN efforts with broader organization initiatives
-

What's Next?

Understanding the **theory** behind social media marketing:

- **Publish an exact schedule** - Editorial calendar? Data metrics?
 - Editorial calendar: Organize and plan/schedule social media for consistent engagement, cross-platform distribution, and to save time
 - Metrics: Must measure what matters to the organization
 - Marketing funnel metrics:
 - Awareness: impressions, likes
 - Interests: comments, shares
 - Desire: downloads
 - Action: purchases, advocacy
-

What's Next?

Understanding the **theory** behind social media marketing:

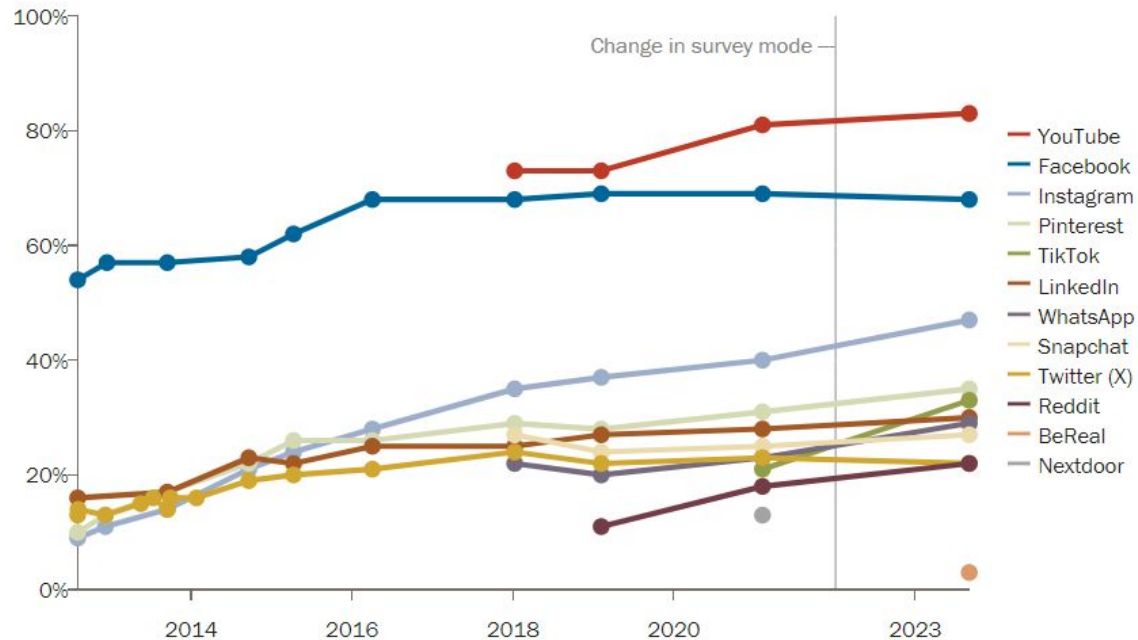

- **Define goals**
 - What we wish to achieve with SNs
 - How they will affect short-term / long-term strategy for the organization
 - Immediate priorities
 - Task delegation and implementation
 - Command structure
 - Benchmarks and KPIs
 - Scope and timeline
-

02

Precedent

Which social media platforms are most popular

% of U.S. adults who say they ever use ...

Note: The vertical line indicates a change in mode. Polls from 2012-2021 were conducted via phone. In 2023, the poll was conducted via web and mail. For more details on this shift, please [read our Q&A](#). Refer to the topline for more information on how question wording varied over the years. Pre-2018 data is not available for YouTube, Snapchat or WhatsApp; pre-2019 data is not available for Reddit; pre-2021 data is not available for TikTok; pre-2023 data is not available for BeReal.

Respondents who did not give an answer are not shown.

Source: Surveys of U.S. adults conducted 2012-2023.

Brochure

Front

Membership

The *Reliability Society* provides its members with networking opportunities for technical exchange with leading experts around the world. We proudly sponsor the Annual Reliability and Maintainability Symposium (*RAMS*) and the International Reliability Physics Symposium (*IRPS*), in addition to other reliability-related conferences. In recent years, the *Society* has expanded its focus and is sponsoring conferences in the emerging fields of:

- Smart Grid Technology
- Cloud Computing
- Prognostics and Health Management
- Photovoltaics

In addition to conferences, your *IEEE Reliability Society* membership fee will provide you with access to the latest technical information covering the fields of reliability and system trustworthiness. Membership includes:

- electronic access to our flagship peer-reviewed publication, the quarterly Transactions on Reliability (T-Rel), with print subscription available at extra charge.
- electronic access to the Conference Digital Library through *Xplore*. The library consists of proceedings of conferences sponsored by the *RS*, including *RAMS*, *IRPS*, and many others.
- Several other reliability-related publications that we partner with other societies are also available for an additional fee for print/online access, including the quarterly Transactions on Device and Material Reliability (*TDMR*) and the quarterly Transactions on Semiconductor Manufacturing (*T-SM*), the bi-monthly Security and Privacy Magazine, and the quarterly Journal of Photovoltaics

Connect With Us

For members, the following sites can allow you to connect with other members and the Advisory Committee (*AdCom*). There, you can find the latest news, access publications from our monthly meetings, conduct research, and register for events.

Whether you're a current member, a prospective member, or a student, we hope you find the *IEEE Boston Reliability Chapter* to be a valuable resource!

Website:

Email Address:

?

Boston Reliability Chapter

Welcome!

As the Central New England representative of the *IEEE Reliability Society*, we offer various resources for community news, activities, and events as we strive to facilitate effective communication for members, guests, and the public.

Brochure

Back

What Is the IEEE Reliability Society?

IEEE is the world's largest technical association, featuring global publications, conferences, and communities. The *Reliability Society* includes industry, government, and academic members focused on enhancing the reliability of systems and products through research, development, and innovative techniques across various disciplines.

Key Offerings

Expert Network

Connect with professionals in diverse fields related to reliability. We offer the Distinguished Lecturer Series – RS subject-matter experts travel to our chapters to discuss special topics.

Professional Development

Access workshops, seminars, and conferences to enhance your skills. Conferences: Reliability and Maintainability Symposium (RAMS), International Prognostics and Health Management (PHM), International Reliability Physics Symposium (IRPS), and Symposium on Software and Reliability Engineering Workshops (ISSREW). These are N. America-based conferences. There are nearly as many located in Asia and Europe, too!

Industry Resources

Discover publications, journals, and standards to stay informed. Additionally, we offer access to the *IEEE Xplore* for reliability related literature and papers and various IEEE standards.
