Department of Computer Science PG

Academic Year 2024-2025

Title: Unlocking the Secrets to be a Data Scientist

Date: 4-10-2024

Classes Attended & Number of beneficiaries: 121

Name and details of the Resource Person:

Mr.Debendra Das, Director, DV Data & Analytics

Objective:

- The objective of "Unlocking the Secrets to Becoming a Data Scientist" is twofold: first, to build a solid foundation in statistics, programming, and data manipulation, complemented by hands-on experience through real-world projects that enhance practical skills. Second, it focuses on developing essential soft skills, such as communication and collaboration, to ensure that aspiring data scientists can effectively translate complex analyses into actionable insights across diverse industries. Together, these elements prepare individuals to thrive in the dynamic field of data science.

Write up on the Programme:

The "Unlocking the Secrets to Becoming a Data Scientist" program offers a concise introduction to the field of data science, focusing on essential concepts and practical applications. Participants will explore foundational knowledge in statistics, programming, and data manipulation, gaining insights into machine learning algorithms and data visualization techniques. The program includes hands-on exercises that demonstrate data collection, cleaning, and analysis, as well as real-world projects that apply these skills to solve complex problems. By the end, participants will be equipped to confidently use data science methodologies in various industries.
