Exploring the Life of Engineering

The Department of Electronics and Communication, in collaboration with IEEE MCE ComSoc and Photonics Chapter organized a *Exploring the Life of Engineering* from October 4th, 2024. The Program aimed to provide a platform for professionals, researchers, and students to exchange insights and advancements in the field of electronics and communication.

Resource Persons: Mr. Srivatsa M R and Mrs. Aathira Vijaykumar Hegde

Participants: Approximately 200 students

Overview: The technical talk titled "*Exploring the Life of Engineering*" was conducted on October 4, 2024, with esteemed speakers Mr. Srivatsa M R and Mrs. Aathira Vijaykumar Hegde leading the session. With around 200 students in attendance, the event was successful, engaging students on the real-world applications of engineering and the broader skills required for a rewarding career in the field.

Details of the Talk: Mr. Srivatsa M R opened the discussion with an overview of engineering fundamentals, focusing on the adaptability and problem-solving skills required in various domains. He emphasized the importance of staying updated with technological advancements and shared his insights on how engineering students could leverage both academic knowledge and practical skills to excel.

Mrs. Aathira Vijaykumar Hegde continued by sharing her journey in engineering, highlighting the value of interdisciplinary skills and teamwork. She encouraged students to focus not only on technical skills but also on personal and professional growth. She also shared tips on building effective communication and critical thinking skills, which are essential for success in any engineering career.

Impact on Students: The talk was highly engaging, with students actively participating in the Q&A session. Many expressed how the session provided clarity on the expectations and challenges they might face in their careers. The speakers' advice on industry expectations and how students can better prepare for the transition from academic to professional life resonated strongly with the audience.

Conclusion: The event concluded on a high note, with students gaining valuable insights and practical advice on navigating the life of an engineering student and the subsequent professional journey. The session was deemed a success, as it fostered enthusiasm and provided students with actionable takeaways to guide their academic and career paths in engineering.
