

SYMPOSIUM

POWER ELECTRONICS FOR ENERGY TRANSITION

September 30 – October 1, 2025 | Graz, Austria

Power Electronics (PE) is one of the key technologies for the energy transition. Austria's two largest research institutes for electronic systems – **Austrian Institute of Technology** and **Silicon Austria Labs** have joint forces to organize this event as a meeting point for industry and academia in central Europe.

The Power Electronics on Energy Transition Symposium will focus on newest technology for automotive applications (including charging), renewable energy in medium voltage applications and DC grids for industry taking onto account the value chain from components to assembly, system and application. Given the rapid growth of electrification around the world the sustainability of electric components is becoming an important topic and therefore will also be addressed.

Topics:

- PE in automotive applications
- PE in medium voltage applications
- Charging
- DC Industry
- Sustainability & Circular Economy in PE

How to get involved:

- **Talk:** Both industry and academia are invited to hand in abstracts for the described topics, the call will open in February 2025. Selected papers will be invited to give a talk.
- **Poster session:** Selected papers will be invited to present a poster.
- **Exhibition:** A table-top-exhibition will accompany the event.
- **Sponsoring:** There are attractive sponsorship packages available for companies or organizations.

Location & Venue

Graz is one of the economic centers of Austria with a great industrial heritage and many companies active in power electronics. It's also the Headquarters of Silicon Austria Labs.

The event venue **Steiermarkhof** is located in the south-east of the city and easily reached by car and public transport (bus from the train station). It offers state-of-the-art conference facilities, lots of space for exhibition/networking as well as a modern hotel.

Address: Ekkehard-Hauer-Straße 33, 8052 Graz, Austria

EXHIBITION AND SPONSORSHIP OPPORTUNITIES

The Symposium offers 3 different packages for organisations to present themselves to the Power Electronics' community before, during and after the Power Electronics for Energy Transition Symposium: Sponsor, Exhibitor and Gold Sponsor (combination).

The exhibition will take place directly in front of the auditorium (Hofgalerie) where both catering and poster sessions are located – allowing perfect interaction with symposium participants (120 – 150 are expected).

SPONSOR

- Includes 1 conference ticket
- Logo on program and event website
- Company tag on social media postings
- Company page on the event website

€ 2000

EXHIBITOR

- Includes 1 conference ticket
- Table-top (table & 2 chairs, electricity, WiFi, Space for 1 Roll-up)

€ 2000

GOLD SPONSOR

- Includes 2 conference tickets
- Table-top (table & 2 chairs, electricity, WiFi, Space for 1 Roll-up)
- Logo on program and event website
- Company tag on social media postings
- Company page on the event website

€ 3000

**We are looking forward to a fantastic
Power Electronics Symposium 2025!**
