Silver Oak University IEEE Student Branch

A REPORT ON
Introductory Session – AWS Cloud Certification Online Training Series

Date: 4th April, 2020
Time: 10:00 AM to 12:00 PM

Introductory Session
"AWS Cloud Certification
Online Training Series"

Introduction:

To make a productive use of the quarantine time, Silver Oak University IEEE Student Branch collaborated with Silver Oak University AWS Academy to organise a training session to understand AWS Cloud computing fundamentals entitled "AWS Cloud Certification Online Training Series" consisting AWS cloud concepts, AWS Core and Enhanced services, security and architecture and various other concepts. This was an introductory session to the course that was meant to prepare students for the fundamental certification exam called "AWS Certified Cloud Practitioner Exam"

Expert Introduction:

Mr. Nilesh Vaghela:

He is an AWS authorized instructor. Also, he is the founder of ElectroMech Corporation Cloud and Opensource Company which is now a partner of AWS India and RedHat India.

About the Session:

The introductory session on cloud computing fundamentals was held on 4th April 2020. The session started with the welcome speech by Dr. Satvik Khara sir, HOD - computer department and faculty branch counsellor of Silver Oak University IEEE Student Branch. He gave a brief introduction of Silver Oak University AWS Academy and also introduced the speaker Mr. Nilesh Vaghela. Then the session was carried forward by the speaker. He gave some information regarding Amazon Web Services and explained "what is cloud?" and "why it is used". Furthermore, he discussed the AWS cloud and its significance over other cloud services. He then gave a brief information about 6 days training and how it is going to be beneficial to crack the "AWS Certified Cloud Practitioner Exam". At last, he explained the level of certifications including the information regarding various courses provided by AWS.

Conclusion:

Many participants had shown their interest for this 12hrs (6 days, approx. 2 hours daily) training series of AWS Cloud Certification which commenced from 5th April 2020. The session was concluded by a Q&A Session.
