Workshop on Power Up by
IEEE CAS Society (CASS) SBC60981AG
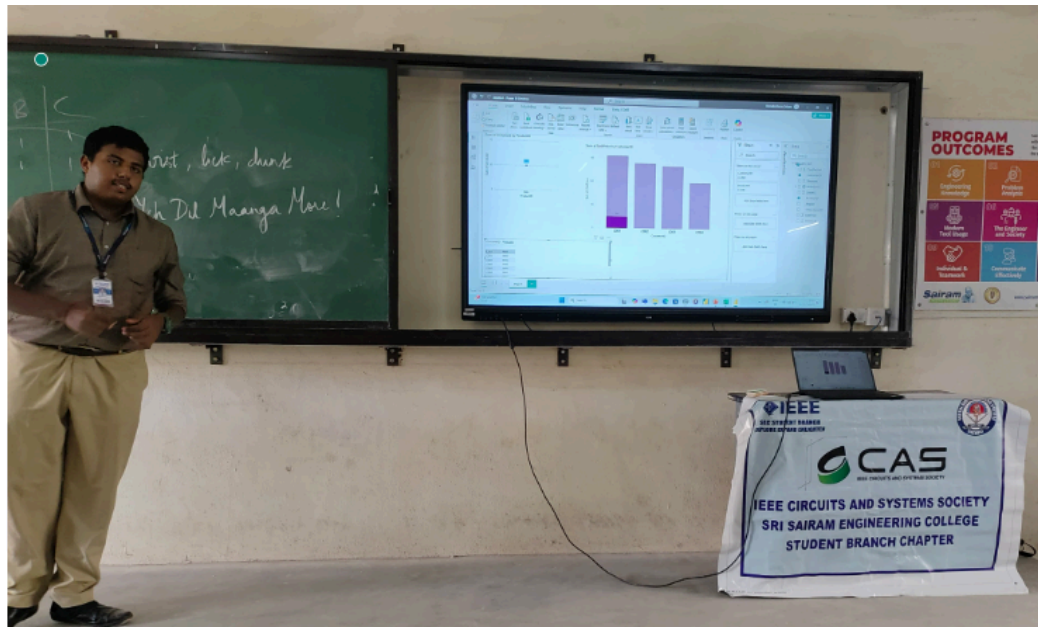

Date: 07.04.2025
Time : 01.30 to 04.00pm (IST)
Mode: In-person
Venue: ECE Smart Class Room, Sri Sairam Engineering College

As a part of the IEEE Education Week Celebration, **IEEE Circuits and Systems Society, Sri Sairam Engineering College, conducted a Workshop on Power Up** for the students **on 07.04.2025.**
Ms. S, Usha, Advisor to the IEEE Circuits and Systems Society, started with the Welcome Address, briefing about the achievements, advancements, and impact of circuits and systems technologies. She also emphasised the importance of networking and collaboration in mastering circuitry. This event is exclusively conducted for IEEE Student members.

This event was successfully conducted at our college to enhance data visualization and analytical skills among students. The session provided hands-on training on building interactive dashboards and generating business insights using real-time data. Experts guided participants through various tools and features of Power BI. Students actively participated and gained practical exposure to data analytics techniques. The workshop received positive feedback and encouraged further interest in business intelligence tools.

In her closing remarks, Ms.S.Usha expressed gratitude to all participants and organizers for making this event a resounding success, encouraging everyone to continue striving for excellence in their circuit mastery journey. She takes this opportunity to thank the **CEO sir, Principal sir, and HOD-ECE Dr.J.Thamil Selvi mam** for their support and guidance towards the successful completion of this workshop.

Number of Participants: IEEE Members:50
IEEE CAS members: 30
