

IEEE Southeastern Michigan Computer Society Technical Chapter

Presents

“Data Engineers and Data Scientists in a Data Analytics World”

At Glance

- **When:**
Date: July 2nd, 2025
Time: 5:00– 7:00 PM EST
- **Where:**
In-person @ LTU, Room M218 (Buell Building, aka #5), Lawrence Tech University, 21000 West 10 Mile Road, Southfield MI 48075
- **Audience:** All eligible members and potential members (only if slots available)

*

Sponsored by
IEEE
Southeastern
Michigan

An illuminating DUAL speaker talk by practicing Data Specialists, this will cover a wide agenda of topics ranging from insights about data engineering, roles and responsibilities, building a data lake, skillset required, high-impact applications in manufacturing, essential tools & technologies, building the right team/culture, ensuring trust & compliance and finally demonstrating value plus the future outlook.

Speaker 1 Bio: Nagadithya Nookala (Data Engineer) is a results-oriented leader leveraging 15 years of experience in data analytics, enterprise data management, product management, and program/project leadership to drive insights-driven decision making

Speaker 2 Bio: Sanjay Ahire (Data Scientist) is a results-oriented leader leveraging over 15 years of experience in data science, manufacturing process engineering, product development, and program leadership to drive insights-driven decision-making.

Pre-Registration Required!
