

**IEEE Southeastern Michigan  
Presents  
Dream Big – Engineering Our World**

Dream Big: Engineering Our World is a 2017 American documentary short about modern engineering and its significance. The vision for this documentary is to inspire young minds, spark passion and creativity into our kids.

Narrated by Academy Award winner Jeff Bridges, DREAM BIG: Engineering Our World is a film that will transform how we think about engineering. From the Great Wall of China and the world's tallest buildings to underwater robots, solar cars and smart, sustainable cities, DREAM BIG celebrates the human ingenuity behind engineering marvels big and small, and shows how engineers push the limits of innovation in unexpected and amazing ways. With its inspiring stories of human grit and aspiration, and extraordinary visuals for the world's largest screens, DREAM BIG reveals the compassion and creativity that drive engineers to create better lives for people and a more sustainable future for us all.

*Review:* "It's the sort of majestic educational film that every adult will want their child to see—and, in all likelihood, will want to see themselves." —VARIETY
