

## Our Vision

Our vision is to create a strong culture of entrepreneurship and innovation in our college, where students are encouraged to think creatively, use technology smartly, and build solutions that solve real problems. We aim to become a space where ideas grow into impactful startups, and every student feels empowered to take bold steps and bring meaningful change to the world.

## Our Mission

Our mission is to help students take their first step into entrepreneurship by providing mentorship, community, and hands-on learning through real-world experiences. We're here to make entrepreneurship approachable and action driven. Through startup sprints, speaker sessions and tech events.

## About Eureka!

Eureka! is a platform designed to foster the spirit of entrepreneurship among students and early-stage startups. The competition encourages participants to present innovative solutions to real-world problems and gain valuable feedback from industry experts.

# Eureka! 2k25

@vpkbiet\_ecell
