

Consultants Workshop

November 15th, 2025, 8:30 AM to 1:00 PM EST/EDT Time Zone

IEEE Southeastern Michigan Consultants Network Affinity Group and IEEE USA are offering a workshop on the whole practice of Consulting: How to start one and how to boost your own consulting practice. This takes place on Saturday, November 15th. This workshop is open to all industry professionals, both experienced and newly minted engineers, as well as students. This is the **2nd time** that the event is being held.

The aim is to disseminate knowledge, directly benefiting the IEEE members, at the same time **improve the technology skills pool, indirectly boosting the economy**. Speakers and experts from the industry will be making presentations and will also be available for discussions and networking during the event. In addition to the practical advice, there will be industry interaction and potential mentoring sessions. Use this opportunity for virtual networking with engineers, industry experts and embedded enthusiasts.

*Confirm your participation by registering on the IEEE events web site
Deadline is 14th November, 2025 11 AM*

Speakers drawn from industry are: Beningo Embedded Group, MAB Lab and D&S Microwave and others...

Do post this flyer in your workplaces, share/inform your peers & colleagues about this event. It is a great way to learn not only what is going on, but also network (virtually) with other professionals as well. Topics will include improving your networking skills, how to start a consulting business, what consultants need to know about creating your base, how to start one, marketing and entrepreneurship. This intensive workshop will also include a closing discussion where a top and well known engineering consultant will share focused tips on why a business should hire a consultant and address any final questions from workshop participants.

Brought to you by the IEEE Southeastern Michigan Sectioners. Do seriously consider joining the IEEE, boost your technical skills, broaden your awareness of consulting in the region, support numerous similar initiatives & learn other benefits this brings.

Open to all, Pre-registration is necessary for attending!
