Date & Time	:	November 11th, 2020 (01:40 P.M.)
Name of Speaker		Kartik Mathur
Conducted on	:	Zoom Meeting
No. of participants	:	56

Workshop description:

Competitive Coding is coding in different programming languages at a level specifically higher (competitive) than the basic coding level. Various platforms provide the opportunity to compete in the coding field worldwide and work their way through different challenges to develop a cognitive thinking and problem-solving skills. In today's time, Competitive Coding is the best way to enhance one's coding skills, shape them for achieving various targets and ace interviews related to corporate fields though many a student aren't aware of this great skill shaping opportunity. Thus, to introduce pupils to competitive coding, Galgotia College's Extreme CSE Department organized a webinar on 'Introduction to Competitive Coding'.

Objective of the Event

- Acknowledging the significance of Competitive Coding.
- Making pupils familiar with the whole procedure of enrolling onto a website and competing in the field.
- Discussing the several types of questions and challenges which are commonly faced.
- Discussing the scope of Competitive Coding for engineering students especially in corporate and related fields.

Outcome of the Event

- The students learned the need of competitive coding in an engineering students' lives.

- The students got familiar with the competitive coding environment and types of questions frequently faced upon.
- The students were able to clear various of their doubts and queries relating to the field.
